

GUIDELINES AND REGULATIONS

GENERAL ADVICE ON ACCREDITATION

- Accreditation is generally awarded to people who can provide **evidence of their journalistic work**. For this reason, please note that applications without the corresponding supporting documents and with incomplete information will not be processed.
- Amateur photographers and photographers and video crews who do not work on a journalistic basis will not be accredited.
- A maximum of two media representatives can be accredited per editorial office. However, reviews of individual cases by the press office are possible.
- There is no right to accreditation. Hockenheim-Ring GmbH retains the right to refuse accreditations without providing justification.

SUPPORTING DOCUMENTS REQUIRED

- **Official press pass from a recognised association.** Only press passes valid for 2019 will be recognised
- **Editorial assignment** with the current date and signature of the editor-in-chief or editor. Alternatively, documents (articles, photos) with a clear copyright notice may be submitted. The documents submitted will be inspected.
- **Signed disclaimer.** The original signature of the media representative is mandatory on the disclaimer.

DOCUMENTS AFTER THE EVENT

Send a copy of the corresponding supporting documentation to the press office at the Hockenheimring:
Hockenheim-Ring GmbH
Presse- und Öffentlichkeitsarbeit
Postfach: 1106
68754 Hockenheim; Germany
E-Mail: presse@hockenheimring.de

Otherwise, it is no longer possible to guarantee accreditation for the following year or for another event at the Hockenheimring.

GUIDELINES AND REGULATIONS

PHOTOGRAPHERS AND TV CREWS

Photographers and television crews also require a photographer's bib, which should be worn clearly at all times in the track area. The photographer's bib can be obtained on site in the press centre for a deposit of 50 EUR per bib. Please note that the photographer's bib can only be collected and returned during the times indicated on-site.

USE OF DRONES

The use of drones, microcopters and similar unmanned flying objects is prohibited in motorsport events.
